

## Protecting Group Free Formal Total Synthesis of the Antitubercular Agent Erogorgiaene

Jhillu S. Yadav,<sup>\*[a,b]</sup> Bodakuntla Thirupathaiah,<sup>[a]</sup> and Ahmad Al Khazim Al Ghamdi<sup>[b]</sup>

**Keywords:** Terpenoids / Annulation / Dehydrogenation / Cyclization / Diastereoselectivity

*In the original article,<sup>[1]</sup> the number of steps involved in the formal total synthesis of erogorgiaene was erroneously reported. The total number of steps for this formal total synthesis should be 13.*

*In addition, ref.<sup>[4a,8a,8b]</sup> were cited incorrectly. The correct citations are given below. Moreover, the synthesis of **9** should be cited as ref.<sup>[6b]</sup>*
